

Dear Parents,

In case of school closure, we are setting Year 6 children some work to be completed at home. Most work will be completed in the text books that we have purchased for them and we will direct them as to what needs to be covered each day / week. It will be helpful for the children to complete the work in the order that we send as the topics often build on one another. All of these topics have been covered this year already, so the children will be revising things they have already learnt. We would have been doing a lot of this in school in the run up to the SATs tests, but obviously they would have had a teacher to teach them! We ask for your support in ensuring the children are completing their work in a timely manner and that work is brought back into school when we re-open. We are attaching a timetable of the subjects that should be covered. There will also be activities available for the children to use via Education City: they have had a copy of their username and password. These activities will be made available via the school website, as explained on the school newsletter.

Reading: The children will be expected to complete **two** reading comprehensions from their normal homework book **per week**.

Grammar: If children are unsure of how to complete an activity, there are explanations of terms in their usual grammar homework books. The BBC Bitesize website has lots of videos available for further explanation. The children have covered this work throughout this year, so most should be familiar to them. As with all homework, children are expected to work to the best of their ability, and do everything they can in order to complete the work; if, however, there are substantial difficulties, bring the task in question back into school when we re-open.

Should school remain open, children can simply bring their books back into school unused; they do not need to complete the work as above, and we will save it for either use in school time or as and when school is advised to close.

We appreciate that this is unprecedented, and that everyone will do their best to work as best they can; we are grateful for any support you can offer your child during the coming weeks.

With thanks,
Ms Fox, Mrs Doyle and Miss Caswell
