Need for Bead missing shape pattern

On the face of it shape 2-D faces

On the face of it

Spinning Shapes

On the face of it 2-D shapes on 3-D objects

Measurement

Science

Grandma's house

OTHER

RE:

Research Ash Wednesday. Why do we celebrate Ash Wednesday? How are the Ashes made? What shape are the Ashes and why are the Ashes in this shape? How long does Lent last? Write a short paragraph about Ash Wednesday in your exercise book. Try and answer as many of these questions as possible. Draw a picture of you receiving your Ashes. Do you remember what Kieran and Mrs O'Riley said when you received your Ashes? Write this in a speech bubble.

History:

We learned about different parts of a castle in our lesson on Monday. Research all the different parts of a castle and see how many of them you can remember. Can you find any new parts of the castle we didn't learn about on Monday? You can use the Castles Knowledge Organiser from your pack to help you get started.

Art:

Why not try a pencil drawing of a castle. Think about the different textures you could make by using different pencil strokes. For example having straight lines, curved lines, and dashed lines, dots, thick lines and thin lines, darker and lighter lines. When you have finished your drawing you could label all the different parts of the castle.

Here is an idea to get you started. Feel free to look in fairy tale books, fact books or the internet for more ideas.
